The BIG Hand of God

The Holy Ghost Shows Up and Works Miracles!

Words just cannot explain the mighty outpouring of the Holy Ghost in Reynosa on April 19-21. This crusade posed one challenge after another and yet the Lord proved Himself faithful: faithful to minister, save, heal and to deliver the captive! The presence of the Holy Ghost was present each and every night, as testimonies began to rise about the amazing touch of God! This city had been plagued for several months by drug cartel leaders and even the city tried to shut down the crusade by denying us the soccer stadium. Yet, there was resolve in our hearts to have the meeting, knowing full well that God had heard the cries of the saints in this precious city of over one million!

Indeed, the move of God was real and prevalent, as the meeting was attracting the presence of local people who were not Christian. The people of Mexico are hungry for a real move of God! They have seen that religion is not rescuing them from their growing troubles, so many are crying out to God and He is hearing them.

On the 2nd night, a previous word God spoke, came to pass regarding the BIG Hand of God as we learned that the police station at our location was in danger of being bombed with hand grenades! Without any hesitation, 700 people immediately evacuated the plaza within 10 minutes! The next day, we learned every police station had been hit except ours! After praying and receiving peace, we continued the meeting indoors and God showed up in an amazing way! One man on our intercessory prayer team was healed of a five year old shoulder injury and a woman's son who was in the hospital with knife wounds to the chest was healed as well! A little girl who could not walk began walking! Many received salvation and the local church gave praise to God!

The doors have been opened in many other cities to host miracle crusades, including Apocada, Nuevo Laredo, Monclova and Candela. Our calendar and other information is available on our website.

Drug cartel members are being saved and delivered, people are being healed of pain and diseases, and others are being healed of sexual and physical abuse, and even the abusers are getting saved! Lives and marriages are being restored and Jesus is being exalted in the process. What an amazing opportunity we have today to be part of the Kingdom of God which is coming into lives here in northern Mexico! Thank you partners for being faithful with your monthly pledges so these life-transforming meeting can happen! Thousands are being ministered to!

People were baptized in Holy Ghost, slain in the Spirit, healed of infirmities, saved from sin, and words of knowledge and prophetic utterances were all present in the crusades in Reynosa and Apodaca in April 2010.

A Hero Goes Home

Rev. William Carpenter, a man of strong faith and endurance, one who believed in the call of God on His life, and saw it fulfilled, went to his eternal home on June 29, 2010. He leaves behind a legacy of laborers and churches in Mexico where he indeed made a difference. Without doubt, he was a strong shoulder to lean on in difficult times and he will be dearly missed by all of us. All the executives and ministers of the Iglesia de Dios Pentecostes en Mexico sends his family their deepest regards to this great man of faith and obedience. May your reward, Bro. Carpenter, be profound and great as you celebrate your new life in heaven our dear brother in Christ. He was our friend and mentor, we will see you soon.
